Unique Student Identifier (USI) Number

Ei requires students to provide a USI Number at the time of enrolling or before commencing training. This is in line with the Unique Student Identifier (USI) requirement from 1 January 2015; all students undertaking nationally recognised training will need a USI, including those undertaking Vocational Education and Training (VET) in schools.

A USI is a unique identifier composed of numbers and letters. Creating a USI is free. It creates a secure online record of your nationally recognised training that you can access anytime and anywhere, and it's yours for life. The USI is linked to the National Vocational Education and Training (VET) Data Collection, which means that an individual's nationally recognised training and qualifications, gained anywhere in Australia from different training organisations, will be kept together.

The USI will:

- link a student's VET achievements, regardless of where in Australia they did the course
- let students easily access secure digital transcripts of their achievements (transcripts will be available from January 2016) give students more control over their VET information.

For further information, please visit <https://www.usi.gov.au/students>

Note:

1. Where a student does not meet the required English level for entry into Ei courses, the student will be required to enrol in ELICOS Programs, so that they can achieve Ei's required English proficiency entry requirement into Training Package qualifications on Ei's scope of registration.
2. All documents that are attached to the enrolment application form other than English must be accompanied by a translation into English by NAATI-National Accreditation Authority for Translators and Interpreters Ltd.
